## LOWREY ORGANS EXCLUSIVELY at GALLAGHER'S MUSIC

"Now I suppose he'll want his name in lights"

Sure he's tickled pink. Who wouldn't be? Imagine a "one-finger artist" making so much music so easily. You'd never dream he ever played an organ before in his life.

The secret is Lowrey's remarkable new organ development, Automatic Orchestra Control (we call it A-O-C for short). Just touch the A-O-C tab. Then play a one-finger melody with your right hand, a simple chord with your left hand. Automatically, like magic, the melody sings out in several notes and several voices... all locked in perfect harmony!

Instrumental voices multiply. One trumpet becomes several trumpets. A single violin becomes an entire string section. Several instruments become an orchestra... automatically, with just one finger.

Can you do that? Can your wife... your husband... your children? Yes, yes, yes! Anyone can. (Even experts find A-O-C increases their range tremendously.) And it's as much fun as having your own orchestra.

Prove to yourself that A-O-C, exclusive on Lowrey Organs, is the greatest easy-to-play organ development in years.

Come in today. Ask about a free home trial. No charge. No obligation. Let us put your name in lights.

And please. Don't wear yourself out shopping around. Only Lowrey Organs have A-O-C.

# THREE GOOD REASONS TO BUY AN ELECTRIC DRYER NOW

- low initial cost
- special installed price
- Edison no-charge service

When it comes to buying a clothes dryer, there are more important things to consider than an incomplete claim about a pennies-per-load operating cost.

Take dryer service, for example. No matter where you buy your electric dryer, Edison will repair or replace electrical parts with no charge for parts or labor.

How do you put a price tag on this extra-special service? One way is to look at what you'd pay for a dryer service policy. Typical charges, in this area, range from \$70 to \$150 over the first five years. This is the kind of money you save when

you dry clothes the safe, gentle electric way.

Also, model for model, an electric dryer costs less to buy than a flame-type does—some electric dryers are \$20 to \$40 less.

And now, for a limited time, the price paid for an electric dryer includes its wiring, if any is needed. So you save even more.

What about cost of operation claims? Just this, an electric dryer costs about 5¢-7¢ per load to operate—and there are no other hidden costs.

Look at all the facts. They add up to electricity. **EDISON**
