

## Donor's Inventory - Historic House – FILES

The table below is a list of the files that have been assembled over many years on historic or interesting houses in Bloomfield Township and Bloomfield Hills. However, there are a few in Birmingham as well as Troy and nearby communities. The amount of material in these files varies greatly. The File folders are presently stored in 30 archival boxes in the Archive room at the BTPL.

An “H” in the Col. 3 means the house is described in the *History Next Door* book; a “C” means that it is presented in the *Century Houses - Bloomfield Township* book, both also on the shelf in the Local History section of the BTPL. The right most column in the table identifies if the house appears in either of both of the *1927 Judson Bradway Driving Maps*.

In almost all cases there are corresponding digital files by the same name located on a USB “flash drive” stored in Box 01 of the collection. In a few cases there are digital files with no corresponding hard copy folders. The hard copy (paper) files sometime contain items that are not in the electronic file. Likewise the electronic file may contain information that has not been printed in hard copy form.
